HOW OFTEN SHOULD YOU
WASH AND CHANGE YOUR
BEDSHEET

WASHING YOUR **BED SHEETS**

To get rid of dead skin cells and other things that attract dust mites, sheets should be washed once a week or at least once every two weeks.

IT IS ADVISABLE MAKE
YOUR BED EVERYDAY

WASHING YOUR **PILLOW**

The pillow itself should be washed every six months. You should also hang your pillows out in the sun once a month or run them through the dryer on no heat cycle.
